MEMORANDUM FOR: SIGINT Committee Principals

SUBJECT: Sensitive Compartmented Program Access

The Chairman has reviewed the functions of the SIGINT Committee, SORS, SIRVES, and their respective standing working groups and establishes the following lists as the requirements for levels of access to sensitive compartmented programs required by each of these groups. The Chairman continues to believe it to be important to stress that affiliation with the SIGINT Committee or its substructure should be used to justify access to these compartmented programs only for the principal member and one alternate from each Department or Agency.
